

HUBBED WHEELS

Make two wheels to the specified dimensions using the same technique you used to make the car wheels, following the **big wheels** instructions on the steamojination.com website.

SIDE WALLS (x2 of each)

Cut circles out of construction paper to the specified dimensions. Don't forget to poke holes in the centre of the circles. Make 2 of each.

SLOTTED BEARINGS

Make three slotted bearings, following the **slotted bearings** instructions on the [steamojination](http://steamojination.com) website.

PULLEY PRECUT PARTS
